

# A WORLD WHERE CANCER IS CONQUERED. OUR COMMON VISION.

Opening this year's meeting is Prof. Dr. Yolande Lievens, former ESTRO President and Head of Radiation Oncology at Gent University Hospital. She will present the challenges ahead of us to conquer cancer. Then, our CEO, Johan Löf, will show how RaySearch is working towards that vision.

The meeting will continue with user presentations, the plan challenge and plenty of time to meet with development and research. Hope to see you there, register below!
